2015 - 2018

WORK EXPERIENCE

Vision 11

Gurgaon, HR

Product Strategy Consultant

Mar 2025 – Sep 2025

- Led liquidity desk setup for low-volume sports (football, tennis) using scraped odds; designed pre-match seeding models.
- Built an automated screenshot generator to capture YouTube event milestones (e.g., real-time views at specific timestamps), streamlining content validation and boosting trust in creator-led events.
- Integrated live crypto charts using Binance and TradingView APIs for the crypto price prediction market, improving transparency and real-time accuracy for users and automated settlements

Probo

Gurgaon, HR

Product Manager (Category Growth)

Oct 2021 – Feb 2025

- Led the end-to-end product journey of ₹.Ai (Rai), an AI-based resolution layer for peer-to-peer prediction contracts, enabling scalable and automated dispute resolution.
- Supported 1000× platform growth by optimising event SKUs, running targeted campaigns, and improving market efficiency.
- Improved match rates by ~5% by consolidating liquidity, reducing fragmented markets in low-liquidity categories to concentrate depth and improve execution.
- Reduced user churn by 2–3% through cohort-based WhatsApp resurrection strategies targeting 60k–70k inactive users.
- Increased push notification CTR by 1.7× by shifting from generic messaging to in-match and behaviour-driven triggers..
- Drove early-stage development of fantasy formats (Fantasy Arena, Polls, Forecasts), defining core logic, reward structures, and engagement metrics.
- Automated competitor tracking and revenue impact analysis by extracting competitor app data via MITM proxy to identify market share shifts and correlate revenue drops with competitive activity.
- Worked on 0 to 1 social features (Creator Tools, Private/Public Clubs), collaborating cross-functionally to define product logic and user flows. Creators Onboarded: 50, Avg. GMV/day on Creator events: 10L/day, Avg. Club visits/day: 50k, Avg. Traders from Clubs/day: 10k
- Cleaned and structured in-app event logs to map the complete user journey and analyse homepage click-through rates, enabling design optimisations.

ESPN

Mumbai, MH

Sales and Brand Integration Intern

Mar 2019 - Jul 2019 & Apr 2021 - Oct 2021

- Led execution of brand integrations for IPL and other marquee sports properties.
- Coordinated with editorial and sponsorship teams to streamline activation.
- Optimised campaign delivery and visibility through performance reports.

PROJECTS

- **Web3 Prediction Liquidity Model:** Designed a liquidity algorithm to optimise pricing and seeding based on market.
- **Resurrection Engine:** Cohort-based campaign system built using SQL to revive dormant users via WhatsApp and push.

ADDITIONAL
